SUMMARY

Results-driven Flutter Developer with 2+ years of experience delivering high-performance mobile and web applications. Skilled in Flutter, Dart, state management (Bloc, Provider, GetX) with expertise in Clean Architecture and RESTful Api integration. Passionate about creating intuitive user experiences and optimizing application performance in fast-paced, collaborative environments.

WORK EXPERIENCE

Flutter Developer - Freelancer (Dehdari Project) **Nov 2024 - Jan 2025**

- Designed and developed a complete municipal management application, covering UI/UX design, controllers, models, and repositories.
- Implemented GetX state management, boosting performance, memory efficiency, and code clarity.
- Collaborated with backend engineers to ensure seamless API integration and data synchronization.
- Applied Clean Architecture principles to improve maintainability and development speed.

Flutter Developer, Novaday **Dec 2024 - AUG 2025**

- Redesigned application UI/UX and implemented design system for consistency.
 - Integrated third-party APIs and services to enhance functionality and user engagement.
 - Delivered cross-platform builds (Android, iOS, Web) optimized for responsiveness.
 - Worked with product owners to gather requirements and transform them into functional, user-friendly features.
 - Implemented performance profiling and optimization to reduce load times and improve app stability.
-

PROJECTS

Currency, Gold & Cryptocurrency Price Tracker **Jul 2024**

- Real-time price tracking app using Flutter, Dart and bloc state management
 - GitHub: https://github.com/SepehrFakoori/currency_exchange_rate_flutter_app
-

EDUCATION

Master of Science in Photonics **2022**
University of Guilan

ADDITIONAL INFORMATION

- Technical Skills:** Flutter, Dart, Django, Python, RESTful APIs, Hive, Floor, MySQL, Git, UI/UX design, Clean Architecture, State management
- Languages:** Persian (Native), English (Intermediate - Good Reading/Writing)
